TUBERCULOSIS (TB) RISK QUESTIONNAIRE
FOR UNIVERSITY OF UTAH STUDENTS

The American College Health Association has published guidelines on tuberculosis screening of college and university students. These guidelines are based on recommendations from the Centers for Disease Control and Prevention and the American Thoracic Society. For more information, visit www.acha.org or refer to the CDC’s Core Curriculum on Tuberculosis available at state health departments or at the following website: www.cdc.gov/nchstp/tb/pubs/corecurr/.

1. Have you ever had close contact with persons known or suspected to have active TB disease?  

   YES  NO

2. Were you born in one of the countries listed below that have a high incidence of active TB disease? (If yes, please CIRCLE the country below.)

   YES  NO

3. Have you had frequent or prolonged visits* to one or more of the countries listed above with a high prevalence of TB disease? (If yes, after printing up this form, please CHECK the countries.)

   YES  NO

4. Do you currently have symptoms of TB? (cough, fever, night sweats, fatigue, and/or unexplained weight loss)

   YES  NO

5. Have you been a volunteer or health-care worker who served clients who are at increased risk for active TB disease?

   YES  NO

6. Do you currently have a long-term illness such as diabetes, renal failure, etc., or an immune system problem?

   YES  NO

If the answer is YES to any of the above questions, The University of Utah requires that you receive TB testing as soon as possible but at least prior to the start of the subsequent semester.

If the answer to all of the above questions is NO, no further testing or further action is required.

*The significance of the travel exposure should be discussed with a health care provider and evaluated.
